Colleen McKenzie

colleen.mckenzie@gmail.com collegraphy.com +1 650 866 5872 updated 27 June 2018

Education

Columbia University

B.A. in Computer Science and Neuroscience, *magna cum laude*, music minor Class of 2012

Professional Experience

Researcher, Director of Operations

Median Research Group Berkeley, CA Jan 2018 – present

• Design new protocol to examine and reveal cruxes of entrenched disagreement in controversial academic fields

Analyze trends in AI research with a focus on timelines and safety

Chief of Staff

Center for Humane Technology San Francisco, CA Apr 2018 – June 2018

- Filled interim role to help manage transition period, based on past work on core issues with Executive Director
- Accompanied Executive Director to speaking engagements and negotiations, including to meetings with MEPs and EU Commissioners and Macron staffers
- Managed excess fundraising, staffing, communications, and strategy concerns with COO

Product & Organizational Strategy Consultant

Self-employed June 2017 – Mar 2018

- Worked with startups and small businesses on roadmaps for future product changes
- Analyzed internal org structures, offered redesigns to avoid inefficiency and miscommunication
- Interviewed organizations' clients on their behalf to understand product use patterns

Software Engineer

Google Surveys, Google Inc. San Francisco, CA Feb 2015 – May 2017

- Completed nine-month engineering rotation and passed Google's SWE interview process to transfer roles
- Rewrote survey creation flow frontend to increase UI and code clarity and decrease latency
- Built new survey management page to improve UX and new internal ops team page to speed review flow
- Designed UIs and components; frequently wore SWE, PM, and UX hats at once

Product Manager

Search, Google Inc. Mountain View, CA Aug 2013 – Feb 2015

• Point person for miscellaneous Search UI needs: prioritized feedback, designed fixes, managed QA processes

• Designed cross-device coordination product from idea to spec; managed development team across three offices

Product Manager

Shopping & Ads, Google Inc.

• Spent first six months managing two separate teams in parallel (Reviews and Promotions)

Mountain View, CA Sept 2012 – July 2013

- Developed a strategy for product reviews on Google Shopping through competitive analysis and UX research; designed and specified necessary features
- Defined requirements, worked with UX and engineers to implement Shopping promotion features

Associate Product Manager Intern

Google+, Google Inc. Mountain View, CA June 2011 – Aug 2011

- Developed and independently conducted interview research to inform product design
- Designed and pitched function and interface for a new Google+ product feature
- Recruited and participated in engineering team to build feature to specifications

Co-founder, Developer

Miagolo Design New York, NY Aug 2010 – May 2012

- Founded and promoted small web development company with former classmate
- Design and implemented sites to client specifications; advised on hosting and content management

Other Projects

Ariadne

Sept 2017 – Jan 2018

Ariadne is a different kind of social network, where groups of collaborators post and respond to longform articles and track which information they believe. Overview at collegraphy.com/projects/ariadne.

Roles: project manager, UX designer, lead developer

Feynstein

Jan 2011 - May 2011

Feynstein is a language designed for making physical simulation accessible to those who want to experiment with physics but who do not have significant experience in computer science. Whitepaper at collegraphy.com/projects/feynstein.

Role: Project Manager, contributing developer
